THIS SKI SEASON, SKIP THE LIFTS AND GONDOLAS. INSTEAD, TAKE A PRIVATE chopper to towering mountains of unspoilt terrain straight from your chalet's helipad in the heart of Revelstoke, British Columbia – the capital of heli-skiing. The western Canadian area has been a magnet for heli-skiers for more than 50 years, but the private Bighorn retreat brings unparalleled style and luxury to the sport. Go harder, faster, steeper and deeper on endless hectares of pristine powder, before being flown straight back to Bighorn. At 15,000sqft and with its own cinema, spa, indoor pool, outdoor hot-tub and a roaring log fire in the triple-height great room, the lavish lodge is one that can rival the ultra-luxe chalets of Courchevel or Gstaad.
